2025 Foundation Parent Payments

14th October 2024

Dear parent/carer,

Bimbadeen Heights Primary School is looking forward to another great year of teaching and learning and would like to advise you of Bimbadeen Heights Primary School's voluntary financial contributions for 2025.

Schools provide students with free instruction to fulfil the standard Victorian curriculum and we want to assure you that all contributions are voluntary. Nevertheless, the ongoing support of our families ensures that our school can offer the best possible education and support for our students. We want to thank you for all your support, whether that is through fundraising or volunteering your time. This has made a huge difference to our school and the programs we can offer.

Within our school this support has allowed us to continue to provide a differentiated curriculum that responds to the learning of all students, provide essential learning resources to students, renew, and enhance the provision of digital technology throughout the school, and improve assessment practices to ensure teaching is targeted to a student's next learning step.

The environment and resources that we enjoy today represent the contributions made by our parent/carer community over many years. Parent/Carer voluntary contributions make a significant difference to the quality of our programs. This financial support ensures that we can continue to provide the excellent range of facilities and resources for your children.

Thanks to the generosity of our parents and carers who made contributions in 2024 parent and carer contributions have supported the provision of new student decodable readers, mentor texts for our students across all literacy programs, update our school's library books and resources and lease new student laptops across the school.

In 2025, we would like to purchase additional technology equipment to support teaching and learning in our classrooms and specialist programs and provide further high-quality literature materials to support our teaching and learning programs. We would also like to provide additional hands-on materials for classroom and specialist programs and specific materials to support our mathematics programs. Parent curriculum and other contributions also provide ICT devices, online subscriptions for our students, resources for wellbeing programs and first aid, along with school ground maintenance and improvements.

If you have not been able to make contributions, please consider contributing to support the continued development and provision of high-quality programs, materials, and resources to support our students and assist them to reach their full potential.

Please note that Parent Payments can now be made at the same time you order a student book pack through Ross Office Supplies. Although parent payments must be made per student, a single payment can be made at the completion of your order for multiple students.

You can also choose to make voluntary payments to Bimbadeen Heights Primary School via the school office anytime if this suits better.

For further information on the Department's Parent Payments Policy please see a one-page overview attached. Yours sincerely,

Adele Gregson Kate Rogers

Principal School Council President

Education and Training

PARENT PAYMENTS POLICY

ONE PAGE OVERVIEW

FREE INSTRUCTION

- Schools provide students with free instruction and ensure students have free access to all items, activities and services that are used by the school to fulfil the standard curriculum requirements in Victorian Curriculum F-10, VCE and VCAL.
- Schools may invite parents to make a financial contribution to support the school.

PARENT PAYMENT REQUESTS

Schools can request contributions from parents under three categories:

Curriculum Contributions

Voluntary financial contributions for curriculum items and activities which the school deems necessary for students to learn the Curriculum.

Other Contributions

Voluntary financial contributions for non-curriculum items and activities that relate to the school's functions and objectives.

Extra-Curricular Items and Activities

Items and activities that enhance or broaden the schooling experience of students and are above and beyond what the school provides for free to deliver the Curriculum. These are provided on a user-pays basis.

• Schools may also invite parents to supply or purchase educational items to use and own (e.g. textbooks, stationery, digital devices).

FINANCIAL HELP FOR FAMILIES

- Schools put in place financial hardship arrangements to support families who cannot pay for items or activities so that their child doesn't miss out.
- Schools have a nominated parent payment contact person(s) that parents can have a confidential discussion with regarding financial hardship arrangements.

SCHOOL PROCESSES

Schools must obtain school council approval for their parent payment arrangements and publish all requests and communications for each year level on their school website for transparency.
